***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 7-11 and 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Gross (U.S. 6721716).

The applicant argues that the prior art fails to teach that the *"the server automatically creates a collection request telegraphic message for payment of the registered electronic invoice on the basis of said unique identification code on the registered electronic invoice, when approval is made by said buyer, and transmits the collection request telegraphic message to said finance system"*. Nor does Gross mention the use of a "unique identification code on the registered electronic invoice" to track the payment from buyer to seller and their financial institutions. This argument is unpersuasive as the step of the server automatically creating is a step which is open ended and can read on a user identifying the document and initiating payment. Once the user selects the invoice, any number used to identify the invoice reads on the unique identifier number claimed.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gross in view of Dent. No additional arguments have been set forth directed this rejection.

***Double Patenting***

Claims 7-16 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-8 and 10-13 of copending application No. 10/694,269.

The applicant has presented no arguments directed to this rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
